

Vice President Special Election 2010
Candidate Statement: Ron Castia

I am running for Vice President of NCNCA because I believe we have a really good group of people on the NCNCA board that are on the right track for making some positive changes and adaptations to our district as it grows.

I feel that I am good fit for the position, as I have worked successfully with Lorri Lee Lown in the past and we have similar ideas about the racing community. I have been at and participated in the last few months of NCNCA meetings and feel that I can work well and in a harmonious way with elected and volunteer members alike.

I have been a competitive cyclist in Northern California for over 12 years and currently participate in road, mountain, cyclocross, and track disciplines. I am a professional coach with Wenzel Coaching, and have served as a mentor in the NCNCA Mentor program for the last two seasons and at the Early Bird training series for 6 years.

I bring with me the experience of being a founder and club president of East Bay Cyclists a local Bay Area club started in 2004 that has raced under the team names of InfoVista Cycling Team, EMC²/Vellum Cycles, and Real Bicycles Racing Team. In addition to performing as club president I have also served several years as the Race Director/Promoter, and as the sponsorship coordinator.
