NCNCA Board Member Candidate Statement

Dear NCNCA members,

I would be greatly honored if you would vote for me as one of your representatives on the NCNCA board of directors for 2022.

My professional background is working in finance; at the start of my career as an auditor for Ernst & Young in London and then San Jose, and subsequently in large and small high technology and bio-pharmaceutical companies in the San Francisco Bay Area. I retired from working a few years ago and am now lucky to be able to devote more time to projects and organizations that interest me and that hopefully would benefit from my experience and expertise.

I have been interested in cycling from the time my parents visited the USA in 1980 and were supposed to bring me back a "10-speed racer". The bike they did bring back was a 3-speed cruiser and I have never let them forget it! I have not been a bike racer myself but my son has been racing BMX since a young age and now races almost every kind of bike possible representing SJBC in the 11-12 age group. Perhaps you could say I am living my racing life vicariously through him. For the 2019/20 season I helped the Rockville Cyclocross Series organizers record lap times and I uploaded results to crossresults.com.

If elected to the Board I hope to assist the current Treasurer, Rikke Jeppesen, and understand the systems and processes that she has put in place over the past few years to safeguard the assets of the organization and ensure the integrity of the financial reporting.

The role that the NCNCA plays, as the hub of road racing, is important to ensuring the vitality of the sport locally. I hope to help maintain and enhance that strength going forward even as financial contributions from traditional sources (specifically USA Cycling) have declined. I am also mindful of the fact that the NCNCA cycling community is crucial to the survival of bicycle racing locally and even though cycling clubs are the voting members of NCNCA, in order to thrive as a sport, we have to ensure that our sponsors, vendors and service providers, race officials, promoters and race directors also succeed.

Sincerely,

Lloyd Davies
